

Testing Contract

A2 Nickname / call sign: _____

One team pays another team to test an identified version of its software systematically. The testing team follows an agreed plan and reports what happened. It does not promise to find a fixed number of defects.

1. Teams

B1 Requesting / paying team: _____

B2 Course section: _____

B3 Testing team: _____

B4 Course section: _____

2. Software and required input

C1 ☐ **Deployed application:** address or GitLab reference _____

C2 ☐ **Executable package:** GitLab reference _____

C3 ☐ **Source version to build:** commit, tag, or release _____

C4 Installation and usage instructions: GitLab reference _____

C5 Test accounts, test data, access, or configuration:

C6 Known limitations or unsafe actions to avoid:

3. Testing goal

D1 ☐ functionality ☐ usability ☐ compatibility ☐ installation

D2 ☐ performance ☐ accessibility ☐ reliability ☐ other: _____

D3 Question the testing should answer:

D4 Direct benefit expected from the testing:

A1 Contract ID: _____
Tutor fills this in

4. Scope and environments

E1 Features, user flows, or components included:

E2 Explicitly not included:

E3 Browsers, devices, operating systems, or environments:

5. Systematic testing method

Select at least one method and specify exactly what it means.

F1 ☐ Written test cases

F1a Test-case or checklist reference: _____

F2 ☐ User-journey scenarios

F2a Journeys and expected outcomes:

F3 ☐ Exploratory testing with a charter

A charter states the area, goal, risks, and time box; it is not aimless clicking.

F3a Charter and time box:

F4 ☐ Input or environment combinations

F4a Categories or combinations to cover:

F5 Other repeatable test method:

A1 Contract ID: _____
Tutor fills this in

6. Reporting quality expectations

Only checked expectations are part of this contract.

G1 ☐ The report identifies the tested version and environment.

G2 ☐ The report records every planned test or charter and its result.

G3 ☐ Each defect includes reproduction steps, expected behaviour, and actual behaviour.

G4 ☐ Findings include useful screenshots, logs, or other evidence where available.

G5 ☐ Severity or user impact is stated and explained.

G6 ☐ Passed tests and observations without defects are also recorded.

G7 Additional measurable reporting expectations:

7. Promised deliverable and evidence

H1 ☐ **GitLab test report:** planned issue or file location _____

H2 ☐ **Separate defect issues** for reproducible problems.

H3 ☐ **Logs, screenshots, recordings, or result files:** planned location _____

H4 ☐ **Result explanation during class**, supported by the written report.

H5 Required report structure or other evidence:

8. Points and deadline

I1 Offered bonus points: _____

I2 Fixed completion deadline: _____

The deadline cannot be changed after tutor approval.

9. Additional conditions

J1 Record any additional condition that does not contradict a checked item.

A1 Contract ID: _____
Tutor fills this in

10. Agreement

By signing, both teams accept this contract and the general Team-to-Team Contract rules. Unchecked optional items are not part of the agreement. Completion depends on performing and documenting the agreed testing, not on finding a fixed number of defects. Tutor approval is required.

Point-loss conditions

By signing, both teams confirm that they understand:

- The fixed deadline cannot be changed after approval.
- If both teams do not attend as required and present the completion form at the first in-person class after the deadline, **both teams lose the contract amount**.
- A team that breaks the contract pays **half of the agreed points** to the other team.
- The tutor may terminate the contract for misuse, unethical conduct, or inappropriate professional attitude.
- Course-process violations may cause a deduction of up to **twice the contract amount** from either or both teams.
- Deductions apply during final grading, and a negative balance cannot be ignored.

A1 Contract ID: _____
Tutor fills this in

11. Student signatures
